1. BASIS OF PRESENTATION AND GOING CONCERN

The Company's financial statements are presented on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company has no source for operating revenue and expects to incur significant expenses before establishing operating revenue. Due to continuing operating losses and cash outflows from continuing operations, the Company's continuance as a going concern is dependent upon its ability to develop a business plan, obtain adequate financing to achieve its plan. In the event that the Company is unable to raise additional capital, as to which there is no assurance, the Company will not be able to continue to exist. The Company's future success is dependent upon its continued ability to raise sufficient capital, not only to cover its operating expenses, but to execute its business plan. There is no guarantee that such capital will be available on acceptable terms, if at all, or if the Company will continue to exist. The Company's major endeavor over the year has been its effort to raise additional capital to meet its administrative expenses, acquire new mineral or other properties or a business. The Company does not currently have any working capital to continue as a reporting company in the United States and Canada. The Company is working urgently to obtain additional financing, which may entail the acquisition of new properties in order to attract such financing. The Company has been assisted by Lance Capital Ltd., a related third party, in meeting its operating expense but there is no guarantee that this will continue.

These financial statements have been prepared in accordance with United States generally acceptable accounting principles applicable to a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying financial statements.

2. NATURE OF OPERATIONS

The Company was previously an exploration stage mining company and has exited the exploration stage since 2010 pursuant to the bankruptcy of its subsidiary-see Note (9). On November 15, 2010, the Company's wholly-owned Canadian subsidiary, Yukon Gold Corp. ("YGC"), declared bankruptcy with the Office of the Superintendent of Bankruptcy Canada and appointed a trustee under the Bankruptcy and Insolvency Act. A Certificate of Appointment, under Section 49 of the Act; Rule 85, was filed with the Office of the Superintendent of Bankruptcy Canada, in the District of Ontario, Hamilton Division. As a result of the bankruptcy, the Company's ownership interest in YGC was cancelled.

On May 16, 2011, the Company merged into its wholly-owned subsidiary, a Nevada corporation, (referred to herein as the "Nevada Corporation") being the surviving entity (the "Merger"). As a result, Yukon Gold Corporation, Inc. effected a re-domiciliation from the State of Delaware into the State of Nevada. The Nevada Corporation, also named "Yukon Gold Corporation, Inc.", has authorized capital of 500,000,000 common shares. Pursuant to the terms of the Merger, each five (5) shares of the Company's common stock immediately before the Merger were exchanged for one (1) share of common stock of the Nevada Corporation. As a result, 148,159,936 issued shares of the Company's common stock were exchanged for 29,632,336 shares of the Nevada Corporation's common stock (See Note 4 - Capital Stock). The par value of the Company's common shares remains at \$0.0001 per share. All of the assets, rights and liabilities of the Company were assumed by the surviving Nevada Corporation. The Merger was approved by the written consent of a majority of the Company's shareholders. All references to common shares and per common share amounts have been retroactively adjusted from the date of inception to reflect the five-for-one reverse stock split, unless otherwise noted.

The 2006 Stock Option Plan is administered by the Board of Directors of the Company. At the option of the board, it may be administered by a committee appointed by the Board of Directors for that purpose.

Upon adoption in 2007, the aggregate number of Shares which could be issued under the 2006 Stock Option Plan was limited to 2,000,000 Shares, then representing approximately 10.63% of the then currently issued and outstanding Shares. On March 18, 2008 at the 2008 Annual and Special Meeting of Shareholders, the shareholders of the Company approved an amendment to the 2006 Stock Option Plan increasing the number of Shares reserved for issuance thereunder from 2,000,000 to 2,899,044, representing approximately 10% of the then issued and outstanding Shares. Any Stock Option granted under the 2006 Stock Option Plan which has been exercised shall again be available for subsequent grant under the 2006 Stock Option Plan, effectively resulting in a re-loading of the number of Shares available for grant under the 2006 Stock Option Plan.

Any Shares subject to an option granted under the 2006 Stock Option Plan which for any reason is surrendered, cancelled or terminated or expires without having been exercised shall again be available for subsequent grant under the 2006 Stock Option Plan.

The purchase price (the “Price”) per share under each Stock Option shall be determined by the Board of Directors or a committee, as applicable. The Price shall not be lower than the closing market price on the OTCBB, or another stock exchange where the majority of the trading volume and value of the Shares occurs, on the trading day immediately preceding the date of grant, or if not so traded, the average between the closing bid and asked prices thereof as reported for the trading day immediately preceding the date of the grant; provided that if the shares have not traded on the OTCBB or another stock exchange for an extended period of time, the “market price” will be the fair market value of the shares at the time of grant, as determined by the Board of Directors or committee. The Board of Directors or committee may determine that the Price may escalate at a specified rate dependent upon the date on which an option may be exercised by the Eligible Participant.

Options shall not be granted for a term exceeding ten years (the “Option Period”).

("Lance") granting a security interest of \$375,000 in settlement of certain payables of the Company that had been purchased by Lance. The Note was registered by Lance against its mineral property (the "Marg Property") on October 15, 2010. Subsequent to the bankruptcy of YGC, on November 23, 2010, Lance issued a Notice of Default to the Company and the Trustee in bankruptcy, in accordance with the provisions of Article 5 of the Note and further, in accordance with the provision of Article 6, demanded payment in full of the entire amount of the \$375,000 Note plus accrued interest. Effective November 15, 2010, the Company's ownership interests in YGC were cancelled. Consequently, the results of YGC are not included in the results of the Company subsequent to November 15, 2010. 10. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying values of cash, accounts payable and accrued liabilities, and loans and advances from related parties approximates their fair values due to the short term maturity of these financial instruments.

The three levels of the fair value hierarchy are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Observable Inputs other than quoted prices included in level 1 that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

Cash is reflected on the Balance Sheet at fair value and is classified as Level 1 because measurements are determined using quoted prices in active markets for identical assets.

Fair value measurements of accounts payable and accrued liabilities, and loans and advances from relate parties are classified under Level 3 because inputs are generally unobservable and reflect management’s estimates of assumptions that market participants would use in pricing the liabilities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

For the six month period ended October 31, 2013.

This section should be read in conjunction with the accompanying financial statements and notes included in this report.

Discussion of Operations & Financial Condition

The Company currently has no business, assets or source of revenue. We continue to operate at a loss. As at October 31, 2013, accumulated losses of the Company were \$15,667,102. These losses raise substantial doubt about our ability to continue as a going concern.

As described in greater detail below, the Company's major endeavor over the year has been its effort to raise additional capital to meet its administrative expenses, acquire new mineral or other properties or a business. The Company does not currently have any working capital to continue as a reporting company in the United States and Canada. We are working urgently to obtain additional financing, which may entail the acquisition of new properties in order to attract such financing.

PART II – OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

In May of 2012, Sheldon Huxtable Profession Corporation (“Sheldon”) filed a lawsuit in the Province of Ontario regarding unpaid legal fees. The Company had no funds and was unable to defend itself in court even though it believed the lawsuit was without merit. On October 16, 2012, the Company and Lance Capital Ltd. (“Lance”) entered into an agreement with Sheldon to settle the claim, which including interest and costs totalled \$20,359. This amount was secured by consent to judgment documents by both the Company and Lance, whereby Lance must pay Sheldon an agreed amount by November 30, 2012. Final settlement with Sheldon was delivered on December 5, 2012 and Sheldon assigned the amounts owed by the Company to Lance.

Item 1a. RISK FACTORS

1. WE HAVE NO WORKING CAPITAL OR OPERATING REVENUE

Yukon Gold has no operating business and no working capital or operating revenue and very limited resources to continue to prepare and file the regular reports required to meet the disclosure requirements of a “Current Information” issuer in the “OTC Pink” tier of the equity markets maintained by OTC Markets Group Inc. The Company’s shares currently trade on the “Pink” tier of the OTC Markets under the symbol “YGDC”. While the Company’s shares are not listed on any exchange in Canada, the Company has continued to meet the filing requirements of the Ontario Securities Commission (“the OSC”) but may be unable to do so in the future. Failure to continue to provide disclosure and information on SEDAR or to OTC Markets Group Inc. may result in the Company’s shares being dropped to a lower category of the OTC Market Group Inc. listing and the de-listing of the Company’s shares by the OSC.

2. GOING CONCERN

The Company has included a “going concern” disclosure in its audited financial statements for the year ended April 30, 2013 which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The Company has no business and no source for operating revenue and expects to incur significant expenses before establishing operating revenue. Due to continuing operating losses and cash outflows from continuing operations, the Company’s continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. In the event that the Company is unable to raise additional capital, as to which there is no assurance, the Company will not be able to continue doing business. The Company’s future success is dependent upon its continued ability to raise sufficient capital, not only to maintain its operating expenses, but to acquire properties or a new business. There is no guarantee that such capital will be available on acceptable terms, if at all, or if the Company will attain profitable levels of operation. The Company’s major endeavor over the past year has been its effort to raise additional capital to meet its administrative expenses, acquire new mineral or other properties or a business. The Company does not currently have any working capital to continue as a reporting company in the United States and Canada. We are working urgently to obtain additional financing, which may entail the acquisition of new properties in order to attract such financing. The Company has been assisted by Lance Capital Ltd. in meeting its operating expense but there is no guarantee that this will continue.

3. RULE 144 IS UNAVAILABLE TO OUR SHAREHOLDERS

Rule 144 promulgated under the Securities Exchange Act of 1933, as amended (the “Securities Act”) is not available as an exemption from registration for the re-sale of the Company’s Shares by its shareholders. Consequently, holders of restricted shares of the Company may be unable to re-sell their shares or deposit legended shares in brokerage accounts. The Company has no current plans to register the re-sale of its Shares.

4. WE MAY HAVE TO ACQUIRE NEW MINERAL PROPERTIES OR ENGAGE IN A NEW BUSINESS TO SECURE FINANCING TO REMAIN VIABLE.

The Company must immediately secure additional financing or engage in a new business to remain viable. Management of the Company believes that we must identify and obtain purchase rights to new mineral properties or a new business in order to attract such financing.

5. THERE ARE PENNY STOCK SECURITIES LAW CONSIDERATIONS THAT COULD LIMIT YOUR ABILITY TO SELL YOUR SHARES.

Our common stock is considered a “penny stock” and the sale of our stock by you will be subject to the “penny stock rules” of the Securities and Exchange Commission. The penny stock rules require broker-dealers to take steps before making any penny stock trades in customer accounts. As a result, our shares could be illiquid and there could be delays in the trading of our stock which would negatively affect your ability to sell your shares and could negatively affect the trading price of your Shares.

6. OUR BUSINESS IS SUBJECT TO CURRENCY RISK

The Company may conduct some of its administrative and operating activities in Canadian dollars. The Company is therefore subject to gains or losses due to fluctuations in Canadian currency relative to the US dollar. The Company does not use foreign currency hedging to mitigate the risk.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On February 15, 2013, the Company entered into a debt settlement agreement with Lance Capital Ltd. (“Lance”) pursuant to which it issued to Lance 60,318,384 common shares which represented payment in full of the Company’s total outstanding debt to Lance of \$301,592 as at January 31, 2013. Lance is a beneficial owner representing more than ten percent (10%) of the issuer’s outstanding common shares.

On April 11, 2013, the Company issued 1,500,000 restricted common shares to Paul Feller, the Company’s Acting Chief Executive Officer (as payment for services rendered from March 1st, 2013 to date of the share issuance).
